

ADDITIONAL NEEDS POLICY

Supporting children with additional needs requires educators to extend upon the strategies they already use in providing quality education and care for children. It is imperative for educators to develop a comprehensive understanding of each child's interests and abilities and implement an inclusive and equitable learning environment that supports their individual needs.

Inclusion is stipulated in the Early Years Learning Framework as *'taking into account all children's, social, cultural and linguistic diversity (including learning styles, abilities, disabilities, gender, family circumstances and geographical location) in curriculum decision making processes.'* Belonging, Being and Becoming (2009) p. 45.

Our Service will work in partnership with families and other professionals to ensure specific consideration and adaptations allow children with additional needs access and participation and achieve positive learning outcomes.

PURPOSE

To be responsive to each child, irrespective of their additional needs and abilities. We aim to provide a supportive and inclusive environment that sanctions each child to fully participate in their education and care at the Service. Educators will remain encouraging, unprejudiced and supportive, ensuring that all children are treated equally and fairly and have the opportunity to grow and develop to their individual potential.

SCOPE

This policy applies to children, families, staff, management, and visitors of the Service.

According to the Inclusion Support Program Guideline (Australian Department of Education, Skills and Employment) March 2020, there is no national definition of 'additional needs.' This term is used within the policy to describe children who may need or require specific considerations or adaptations to participate fully in our Early Childhood Education and Care service.

Additional needs may include children who:

- have a diagnosed disability or developmental delay- physical, sensory, intellectual, or autism spectrum disorder
- are presenting with challenging behaviours and/or behavioural or psychological disorders
- have a serious medical or health condition
- are presenting with trauma-related behaviours
- are Aboriginal or Torres Strait Islanders
- are recent arrivals in Australia
- have a culturally and linguistically diverse background
- live in isolated geographic locations
- are experiencing difficult family circumstances or stress
- are at risk of abuse or neglect
- are experiencing language and communication difficulties
- have learning difficulties
- are gifted or have special talents
- have other extra support needs.

We understand that additional needs may be temporary or permanent with diverse origins, which require different responses. Supporting children with additional needs enables them to have equitable access to resources and participation. This can lead to stronger skills in literacy and numeracy, social and

emotional development and understanding of diversity. Strategies for supporting children with additional needs can differ significantly, because every child is unique.
